

## ELECTRONICS COMPETITIVE ACTIVITIES OF THE REPUBLIC OF MOLDOVA

-  Electronic devices design & manufacture
-  Embedded programming and R&D
-  PCBs Design & Manufacture
-  EMS & ECM
-  PCBA, SMD & THT montage
-  Inductive Components
-  Nano Sensors & Micro Wires

## THE ELECTRONICS INDUSTRY OF THE REPUBLIC OF MOLDOVA TODAY

 **12.800**  
employees

 **160**  
companies

The sector shows promise in contributing to GDP, generating employment, and attracting foreign direct investment.

# ACEM

## The Association of Electronics Companies in Moldova

The electronics industry of the Republic of Moldova is part of the global value chain

## WHO WE ARE?

The Association of Electronics Companies in Moldova (ACEM) is a nonprofit organization founded in May 2019 to represent its members' interests in relations with the central authorities, to facilitate sharing of the best practices among its members, and to increase competitiveness and development of the electronics industry.

ACEM is the catalyst for the electronics industry and a reliable dialogue partner for Moldovan decision-makers.

## BENEFITS FOR MEMBERS

### Cooperation & Matchmaking

Identify and facilitate meetings with potential local/international business partners

### Exhibitions & Events

Open calls for members to attend the relevant industry fairs and exhibitions

### Lobby & Advocacy

Facilitate contact with state institutions and decision makers

### Education & Career

Support and promote the career in electronics by offering development opportunities for young specialists in the field of electronics and microelectronics

## MOLDOVA ELECTRONICS FORUM

The Moldova Electronics Forum is an annual event that aims to bring together national and international representatives from the electronics industry, decision-makers and local companies to showcase the electronics manufacturing sector in Europe and highlight the capabilities and potential of the Moldovan electronics industry along the entire value chain.

Moldova Electronics Forum is an ideal platform for speakers and visitors to exchange ideas, knowledge and network.

## COMPETENCES IN THE ELECTRONICS INDUSTRY DEVELOPED IN THE REPUBLIC OF MOLDOVA

Electronics manufacturing

Development & design

Electronic components

Embedded systems

Biomedical Engineering

Robotics & Mechatronics

Microelectronics & Nanotechnologies

Power Electronics

R&D and Engineering

Promote & represent members' interest

Increase the competitiveness of the electronics industry

Facilitate investment opportunities

Strengthen the cooperation between the Association members

Support the Government to improve the business climate

Organize joint marketing activities for Association members
